

Software Engineering - Meeting IV

Sprint 4

21 October 2023 / 10:00 pm

Attendees

Maneesh, Fee Kim, Simardeep, Emily

Agenda

- Review issues
 - Count weights and ensure distribution is good with everyone on the team
 - Discuss progress of issues and close any completed issues
 - Add any contributors to issues or change assignments if needed
- Expected for all API call scripts to be completed
- Final changes and remarks at end of the sprint

Notes

- Changed weights on certain tasks that required more/less time
- Discussed making Coursecode the primary key in the future
- Emily
 - Finishing off the demo slides for the sprint
 - Testing the API calls to ensure they all work cohesively with one another for the demo
 - Keeping track of burndown chart, issue progress, and weights.
- Maneesh and Fee
 - Helped break down how to feed the results into POSTMAN and demo their code
- Simardeep
 - Needed to complete documentation for the POST API
- Sara
 - Needed to complete her research and user stories

Next Meeting Agenda

- Team members will be finished their work and progressing to the next sprint
