

Software Engineering - Meeting II

Sprint 4

17 October 2023 / 10:00 pm

Attendees

Maneesh, Sarah, Fee Kim, Simardeep, Emily

Agenda

- Regroup after lecture explaining the sprint in more detail
- Review issues
 - Adjust weights if needed
 - Assign certain issues that open up after the lecture
- Ensure group member's understanding of issues and the sprint
- Chose development strategies for local and singular branch development
- Set deadlines for pending issues

Notes

- Not going to be viable to work on the VM.
- Live production is not viable (quick fixes are acceptable)
- Maneesh
 - Documented local repo set-up
 - Team members will choose to follow the documentation set up or make their own local dev
 - Gave a run-down during the meeting
- Emily
 - Clean up the repository to make navigation easier.
 - Started documentation on group progress and slideshow.
 - Keeping track of burndown chart, issue progress, and weights.
- Sara
 - Will start local development set-up
 - Started database design (goal to finish by Wednesday evening)
 - Plan to transfer data from csv to db
 - Set up database by next meeting.
- Fee and Simardeep
 - Will start local development set-up

Next Meeting Agenda

- Ensure database is fully set-up and functional
- Ensure documentation on usage of database is on the repository
- Ensure that everyone's local set-up is working and complete
- Resolve any problems or delays in open discussion
