

Software Engineering

Sprint 3 September 26, 2023 12 – 12:30 pm

Attendees

Simar, Maneesh, Emily, Fee Kim, Sara

Agenda

- Understand and walkthrough the sprint document again.
- Add Weighting to new issues.
- Assign Developer, roles and add comments for each issue.
- Discuss any sprint details (Tools, UI Design, Structure of webpage, etc).

Notes

- It is decided that the webpage will have homepage and about page which can be navigated using scrollbar.
- In the homepage, there will be a button for opening excel spreadsheet.
- About page will have clickable pictures of each team member, which will open new page for each team member showing the result of their PHP script.
- Everyone will work on Updating HomePage, UI Design, and structure of the website.
- Sara will create Figma Design and will send invitation link to every team member.

Next Meeting Agenda

- Team members will meet with preparedness and knowing about the basics of PHP.
- Team will start collaborating for the sprint3.
