Software Engineering

Sprint 2

18 September 2023 / 9:00pm

Attendees

Maneesh, Sara, Emily, Fee Kim, Simardeep

Agenda

- Understand and walkthrough the sprint document
- Add weighting to issues
- Assign developer, roles, and add comments for each issue
- Discuss any sprint details (Leftover parsing, excel UI, etc.)
- Group communication expectations
- Pick out meeting times for the rest of the sprint

Notes

- Maneesh will organize and monitor the active repo for sprint2

    - Will also take up documentation, demo slides, and any support role that may be needed for developers
- Sara will work on parsing the prerequisite string itself that was parsed in sprint1

    - Making sure to cover cases that use "and", "or", and credits completed
- Simardeep will work on parsing the restrictions from the text file

    - We will need this when it comes to checking eligibility for courses in the Excel portion of the work

- Emily and Fee Kim will work on creating the Excel UI for the user and the VBA scripts that handle the logic

  - Together, they can work on the UI with the current parser implementation without being blocked and once parsing it completed, will coordinate with Sara and Simardeep in order to write the VBA scripts that handle logic for course eligibilty

Next Meeting's Agenda

- Ensure that the prerequisite and restriction parsing is done successfully
- Ensure that a reasonable UI has been thought of and implemented
- Recap all issues and maintain them if necessary
- Resolve any open problems or discussions
