Software Engineering

Sprint 2

23 September 2023 / 10pm

Attendees

Maneesh, Sara, Emily, Fee Kim, Simardeep

Agenda

- Review issues
  - Close any finished issues
  - Adjust weights if needed
  - Add any issues we may need/reassign if necessary
- Review/merge any open MRs
- Review the burndown chart to ensure we're on track
- Answer any questions or clarify expectations together
- Set deadlines for the next meeting

Notes

- Maneesh added test cases and is now waiting on some group feedback to finish the demo slides
  - Also created a Windows VM since the VBA script will only work there
- Sara has re-implemented a different way of parsing of the prerequisites along with adding test cases and user stories
- Simardeep added test cases and user stories
- Emily is almost done the logic for eligibility

- - Just needs to figure out '1 of' and '2 of' prerequisites
  - Once completed, if she did not have time to add logic for restrictions, we will pair program as a team to get it done
- Fee Kim is finishing up the UI and finalized the process of how a student will enter courses and see their eligible courses
- Adjusted meeting time for Sept 24 for 5pm so that we can see much of the VBA logic is done and whether we need to pair program

Next Meeting's Agenda

- Ensure course eligibility logic is working ± restriction checking
- Ensure that Excel UI work as expected
- Recap all issues and maintain them if necessary
- Resolve any open problems or discussions
